

COMPASS GROUP FACT SHEETS ON OUR VALUE ADD TO THE MOE SCHOOL LUNCHES PROGRAMME

OUR COMMITMENT

Compass Group New Zealand is entirely committed to the wellbeing of the children in the nutritional meals we provide, and the success of The Healthy Schools Lunch Program. We have a dedicated team of specialists to ensure the smooth running of our operations including at our new production kitchens, our front end staff, dieticians, chefs, and our wider team at our National Support Office. We take great pride in the care and precision of the tailored healthy and nutritious meals we produce for every child at each school, as well as our Healthy Lives Educational Program, Sustainability and Waste Management initiatives.

Have you met our Production Kitchen Managers yet? You may have heard from or seen John in Christchurch, Shaun in Palmerston North and Jonathan in New Plymouth. This

specialised team makes personal visits to our 50 schools in their area regularly to engage with the school community, talk with the students, teachers, parents and principals and makes sure we have it just right. The team is always in close contact and just a phone call away should you need any assistance.

Whilst Compass Group is the largest food service provider in New Zealand this gives confidence that we have a wider team of people available at our National Support Office and gives the benefits and strengths of global best practices including sustainability, pandemic measures and scale of our capabilities. Please do reach out to us if we can help further drive excellence at your school in any way by emailing us and Cindy at school.lunches@compassgroup.co.nz
