Compass Group has designed bespoke menus just for the Ka Ora, Ka Ako Healthy Schools Lunch Program to ensure a vibrant and nourishing meal is provided each and every day to the 11,600 students at over 50 schools we serve. All of our menus have been designed by chefs and dietitians to meet the nutritional guidelines and portion sizes provided by the Ministry of Education as well as individually meeting the needs and dietary requirements of each and every individual student.

Over the past 6 months of providing both hot and cold nutritious lunches we have made significant menu changes 3 times by listening to the feedback we received from students, teachers and parents. By enhancing our menu to a more appealing offer based on this feedback we have also been able to significantly reduce food wastage. This tells us the students are enjoying our yummy lunches even more so and are benefiting from the nutritional value provided for their learning and energy throughout the day!

We are also one of the only providers supplying a hot lunch to our schools. We are very proud to deliver this on such a large scale. This is a real treat to the students particularly in winter time and warms up their hearts and souls at lunch time. This hot lunch also provides a better variety of options of exciting and nutritional meals throughout the school term. **The hot lasagne and hot butter chicken have been a huge hit with the students!**

Compass will continue to provide healthy, nutritious lunches and will remain flexible so our menu changes are in direct response to feedback.
